

Business Rules

Fields	Description
Authenticate	a user must authenticate with a valid email and password before accessing system
Authenticate	users are assigned a role as coordinator or judge or participant at login and access to modules is restricted by role
Event management	an event cannot be published unless all mandatory configuration fields (for example: name, start date, end date) and at least one track are completed
Event management	event configuration is locked and cannot be modified after the event has been published
Participant	participant registration closes automatically when the registration deadline passes or the maximum participant capacity is reached in whichever occurs first
Participant	each participant may register for only one track per event
Participant	the organizer must approve or reject each registration and approved participants receive a confirmation notification
Team management	a team must meet the minimum and maximum member (3 - 5) count defined for the track before it can be enrolled
Team management	team formation and track enrollment are locked after the enrollment deadline and no changes are permitted after that point
Event management	each competition round must have a defined start time, end time and submission deadline before it can be opened
Event management	a round can not be opened until the results of the previous round have been published
Submission	only 01 active submission per team per round is allowed and resubmitting replaces the previous entry
Submission	submissions received after the round deadline are automatically rejected
Submission	a submission must pass format and completeness validation before it is queued for judge assignment
Submission	each valid submission must be assigned a minimum number of judges as specified per track and a judge may not be assigned to a submission from their own team or organization

Submission	rankings are calculated automatically once all scores for a round are submitted and ties are broken by a secondary criterion set during event configuration
Team management	only teams ranked at or above the qualification threshold advance to the next round and eliminated teams are notified with their final score and rank
Submission	final results may only be published after all rounds are closed and all scores are finalized and results cannot be auto-published without organizer review
Participant	prizes are distributed only after winner eligibility is verified and digital certificates are auto-generated for all participants who completed at least one round
Event management	an event may be closed and archived only after prizes are distributed and all certificates are issued and archived events are read-only
